Tasks

Prepare Client Report

1. Draft a summary of project progress and outline upcoming deliverables.
2. Compile key updates for the upcoming client review meeting.
3. Prepare a project status document including completed work, in-progress items, and pending tasks.
4. Create a report highlighting current milestones and any blockers affecting progress.
5. Finalize the client update with the latest project developments and next steps.

Staus: TO DO

Time spent:

Deadline: 13/05/25

Assigned: User1

Log time

Write Unit Tests for Login Flow

Write unit tests to verify login behavior using NUnit. Cover scenarios including successful login with valid credentials, failure on incorrect password, empty username or password fields, locked accounts, and multiple failed attempts triggering security response.
